

Finland has been the forerunner of best Educational Practices in the world. The Council for Creative Education (CCE) Finland had invited videos and ideas of working from various schools and it gives us immense pride to inform you that Our school – Pavar Public School Kandivali, has been short listed as one the 8 schools from India who are invited to attend their Early childhood education online conference' from 14th to 16th Oct 2020.

It only proves that we are providing better teaching methodologies and techniques to our pre-schoolers. We shall provide more news in this column after the conference. We thank all our stake holders for making this possible. We re-iterate our motto “Together we can make a difference”. Video Link:
